| Interfaces        | Ethernet            | RJ 45 connector   |
| Battery           |                     | 2600 mAH Li-ion   |
| Audio             |                     | Integrated Speaker. 3.5mm Audio Jack                                      |

\* Optional

## About us

OptiPace Technologies is headquartered in Bangalore. Our core strength areas are product designing and engineering. We work on building embedded solutions. We have expertise on Linux, Android and iOS.

We have worked on mobile and last-mile technology solutions since 2002. It was, at that time, a new technology that India was exploring. We have made our contribution in defining its path in India. Our team built one of India's most successful handheld terminal devices for last-mile mobility solutions in 2008 (GeoAmida). We are now poised to evolve further with a vision that comes with long years of experience and focused efforts.

## Company Snapshot

- Established in August 2014
- Private Limited, headquartered in Bangalore
- Started by the team who designed GeoAmida HHT
- Rich experience in product design and engineering
- Focus on product design and engineering services for mobility solutions
